

Refer Your Patients to Colorado Advanced Orthopedics

The Western Slope is a hot bed for outdoor activities, and these are often associated with an elevated risk of injury. In these situations, the right orthopedic treatment can mean the difference between the ability to make a full recovery and being saddled with chronic pain or functional limitations down the road. Partnering with an experienced orthopedics provider will ensure your patients receive the exceptional care they deserve.

Colorado Advanced Orthopedics (CAO) provides orthopedic and sports medicine services to individuals along the Western Slope. We're passionate about providing an amazing patient experience in order to help our patients return to living the life they love each and every day.

Colorado Advanced Orthopedics: Providing the Exceptional Care Your Patients Deserve

Colorado Advanced Orthopedics is a specialty clinic located at Pioneers Medical Center (PMC). PMC has been providing robust healthcare services to families in Meeker and throughout the White River Valley since 1950. Our orthopedic clinic opened in July of 2020 and in less than two years, we're already outgrowing our clinic space. We recently began construction on a new expansion which will add to our capacity, allowing us to care for significantly more orthopedic patients.

At CAO, we're committed to providing the highest quality orthopedic care in the area. To deliver on this promise, we've worked hard to build a strong, skilled surgical team. All CAO orthopedic surgeons are board-certified and Fellowship trained. The extensive skill and training of our doctors, combined with our access to the most advanced technology available, ensures all procedures are completed using the latest clinical techniques that deliver patient outcomes which exceed industry standards.

"I tore my bicep and had no strength in my right arm whatsoever...Dr. Martyak reattached my bicep and I cannot say enough good things about my experience at Colorado Advanced Orthopedics -- I value Dr. Martyak's skilled expertise and received excellent patient care from the entire clinic and surgical staff at Pioneers Medical Center. I am very grateful to have my strength and mobility back with no pain."

Ty G., patient at Colorado Advanced Orthopedics

Providing Unparalleled Levels of Patient Care

At CAO, we're driven by our purpose: to make people feel cared for. Our entire team is passionate about patient care, and we work extremely hard to provide an amazing experience every day. As part of our commitment to exceptional patient care, we:

- Strive to build meaningful personal relationships with each patient to better understand their unique needs and goals
- Create a safe, comfortable environment with beautiful amenities
- Provide extensive patient education so individuals can make informed decisions regarding their treatment options
- Lift our patients up, helping them celebrate and enjoy life.

"Dr. Purnell sat down with me, looked me in the eye and I could tell he was truly listening. On the day of surgery, I was nervous. Dr. Purnell came in and met with me beforehand with a light demeanor and an air of calm. When I was taken back to the operating room, it was Dr. Purnell who placed the blanket on me and made sure I was comfortable. This may seem minor, but I have had a few surgeries where I didn't even see the surgeon but for a second pre-op and before I went under."

Julia E., patient at Colorado Advanced Orthopedics

The demand for Dr. Kevin Borchard's skilled surgical techniques and extensive fellowship training drives patients from all over the country to Meeker, Colorado, for his specialized orthopedic services; because of this, Colorado Advanced Orthopedics, Sports Medicine, and Spine (CAO) continues to see extraordinary growth with excellent patient outcomes.

CAO is proud to announce robust data and performance numbers coming out of the national release of Dr. Borchard's surgical patient data by Stryker, creator of the Mako SmartRobotics™ System, from July 1, 2021, to June 30, 2022.

Stryker's Insightful Data Analytics database (IDA) currently has 900,000+ patient records and 90 million data points.

	Dr. Borchard	IDA Average	Top Score
Discharged Home after Surgery	100%	94%	95%
90-Day Readmission to Hospital after Surgery	0%	2.21%	2.08%
Ability to Bend Knee Post-Surgery	101°	86°	99°
Distance Walked Day of Surgery	364 ft.	134 ft.	149 ft.

*90-day readmission to Pioneers Medical Center after surgery

"I have had the pleasure of working directly with Dr. Borchard for about five years. I am seeing amazing results from his surgeries. The outcomes from Dr. Borchard's total knee replacements are outstanding in comparison. I see lower pain levels and range of motion is coming along quicker and recovery time is much shorter."

Christer Ljungqvist, PT, COMT, CDN, Director of the Rehabilitation Department at PMC
